GEORGIA'S \$120 MILLION TAX CREDIT PRIVATE SCHOOL VOUCHER PROGRAM

Under HB 54, Georgia lawmakers want to direct \$200 million to the state's private school tax credit voucher program every year, an increase of \$80 million. The voucher program operates with scant oversight and no accountability. Unlike public schools, little information is collected about the tax credit voucher program. Georgians should tell lawmakers NO on HB 54.

WHAT WE KNOW ABOUT STUDENTS

- Gender
- Race
- Family income measure
- Grade level
- Instructional category
- School attended
- Year & grade level of first enrollment
- Academic performance
- School district of residence
- Student outcomes

WHAT WE KNOW ABOUT SCHOOLS

- Name of school
- School district/voucher school location
- Admission requirements
- Number of students/voucher students enrolled: total & by race, gender, grade level & instruction category
- Retention/graduation rate
- Academic performance
